

Learning Outcomes

Course: Globally good school leadership

- ✓ Participants will be in the position to transform their schools into learning communities and developmental engines for glocal societal transformations
- ✓ Participants will have become familiarized with a broad but integrated range of new concepts and practices that they can use in their daily work for leading their school as a spearhead of transformative change towards a desirable global society
- ✓ Participants will be prepared to place individual and collective human development at the center of all activities at their schools
- ✓ Participants will have access to ideas and tools for international collaboration to support the developmental aims they have for their schools and classes
- ✓ Participants will be able to take charge of their own personal and professional development
